Full-stack web developer with strong expertise in the **MERN stack** and **responsive UI/UX development** using React.js and Tailwind CSS. Expertise in **scalable web application development**, designing **RESTful APIs**, **implementing JWT-based authentication**, and developing **responsive user interfaces**. Adept at delivering clean, maintainable, and performance-**optimized** code.

SKILLS

JavaScript (ES6+)	HTML5	Accountability
Rest API	CSS3	Professional Discipline
MERN Stack	Visual Studio Code	Analytical Thinking
Tailwind CSS	Technical Documentation	Problem Solving
GitHub		Adaptability

PROJECTS

Uber Clone — Full-Stack Ride Booking Platform

- Developed a full-stack ride booking application using MERN stack with modular React architecture.
- Designed RESTful APIs using Node.js and Express.js for ride management and user authentication.
- Integrated Mapbox API and Socket.io for real-time location tracking and route visualization.
- Implemented JWT-based authentication with role-based access control.
- Built responsive and animated UI using Tailwind CSS and GSAP
